23 August 2022

Notification: 039/2022

Dear Parents/Guardians,

### **Introduction of 3D Pen as New Media for Museum-based Learning Art Lessons**

We would like to inform you that your child/ward will be learning how to use 3D pens to make art for their Museum-Based Learning art module this semester. This is to expose our students to a popular new media in art-making in response to one of the artworks they have studied.

Safety rules and routines are in place to ensure that our students are able to handle this art-making tool safely. In addition, every student will also be issued a pair of personal cotton gloves as additional protection. During these lessons, the art teachers will be observing students who display good aptitude in handling this new media. These students may be offered opportunities to undergo advanced training in handling the 3D pen via a special art-making clinic. Details on the advanced training will be shared with the selected students later.

We would also appreciate your partnership in encouraging your child/ward to learn and display their skills while adhering to all the safety measures in place.

Thank you for your partnership and support in nurturing your child/ward in becoming an empowered learner at MFPS.

Yours sincerely,

---

Ms Cecilia Lim  
Principal
