Online Mathematics Learning Portal – KooBits ProblemSums

Dear Parents / Guardian,

To encourage our students to be empowered and self-directed learners, the school has embarked on an online Mathematics Learning Portal, KooBits ProblemSums. This portal allows students to learn Mathematics online in a fun and engaging manner and they will be able to practice applying Mathematical concepts learnt in class using the self-practice components in the portal at their own time. This portal will complement the Student Learning Space (SLS) in learning Mathematics online as the teachers may also use some activities from the portal to teach in class and/or set online assignments for the students.

Kindly see attached letter from the KooBits vendor that explains the portal functions in detail. Your child/ward is now able to access this learning portal using the same SLS Login ID. The password and login ID **are the same**.

Example:

Login ID: AARON1234A

Login password: AARON1234A

Thank you for being co-partners with us in the education of our children.

Yours sincerely,

Mdm Jaselin Ang Chieh Sin
HOD Mathematics

Ms Cecilia Lim
Principal

To Parents from Mayflower Pri,

Dear Parents,

KooBits

We'd like to introduce the most popular online maths learning portal in Singapore, **KooBits** as an additional learning resource for your child. This system is designed to help students become a master of math skills on their own.

Developed by a group of passionate educators and curriculum experts with continuous updates every year, KooBits offers the following benefits to your child:

- More than 100,000 problem sums with detailed solutions
- More than 20,000 mechanical sums and foundation maths questions
- More than 600 step-by-step video tutorials for each skill topic to teach your child
- Online draw-model tools to help record down your child's workings
- Intelligently improve your child's weak areas through individually customised homework
- Engaging maths challenges and other fun maths related activities to motivate your child
- Accessible anywhere anytime on PC, Mac, iPad or Tablet with Internet connection.
- Super Hero challenges for mental sum and elimination skill practice
- More than 50+ maths learning games to learn with fun

Your child will be able to access Self Practice, Homework, mock exams, quick tests in the system, and get engaged via daily activities and peer interactions to learn maths, earn points and win prizes. It's highly recommended for your child to use this portal at home for independent and self-directed learning.

Please find login details below:

Login Address: <https://koobits.com>

Login ID format: First 5 characters of name + Last 5 of BC number (4 digits & 1 letter)

Login ID example: ELIZA1234A

Default password: Same as Login ID

Complimentary KooBits Parent app
Access the Help Center for answers to frequently asked questions, read the latest articles for quick & easy tips, and see the daily progress of your child all on one single app
